Potential Supply of Natural Gas in the United States

Report of the Potential Gas Committee (December 31, 2010)

Washington, DC
April 27, 2011
Potential Gas Committee:

100 Volunteer Geoscientists & Petroleum Engineers

Biennial Assessment - since 1964 – of the Technically Recoverable U. S. Natural Gas Endowment

PGC + EIA Proved Reserves = Potential Future Supply
Organization of Potential Gas Studies

Potential Gas Committee

Larry M. Gring
President/General Chairman

Darrell L. Pierce
Chairman, Board of Directors

Develops assessment policy and procedures, directs and manages studies of natural gas resources, recruits personnel and supervises work, prepares reports on natural gas resources.

Potential Gas Agency

Colorado School of Mines
(supported by industry)

Dr. John B. Curtis, Director

Approves criteria and methods, insures maintenance of standards and objectivity, reviews and evaluates reports, publishes final assessments of gas resources.
Proved Reserves vs Resources

- Known gas reservoirs
- Existing economic conditions
- Existing operating conditions

- Discovered
- Undiscovered
- Effects of technology
- Effects of economics
